General Education Policy Proposals | Effective Fall 2026

First set of proposed policy revisions

| | | | |
|-------------------------|---|-----|---|
| Overview | <p>Guiding Principles</p> <ul style="list-style-type: none"> • General Education requirements should be the same across all undergraduate degrees. • A change of major should not lead to the “uncompletion” of a previously completed degree requirement. • Reduce the complexity of curriculum to better support students navigating their degree programs. <p>General Education Curriculum & Attributes</p> <ul style="list-style-type: none"> • Removes attributes as graduation requirement while strengthening their importance to the curriculum. • Codifies the 32-unit requirement for General Education. • Consolidates policies to assist students and others in understanding requirements. <p>Foundations Writing</p> <ul style="list-style-type: none"> • Updates the subject area from English to Writing to support students by request of the English Department and Writing Program. • Provides more options for transfer students with the inclusion of WRIT 305. • Reduces administrative burden by eliminating the transfer portfolio option while ensuring students earn academic credit for academic work. • Eliminates MCWA in support of Writing Across the Curriculum and to reduce non-course requirements for students. <p>Foundations Math</p> <ul style="list-style-type: none"> • Streamlines math foundations policy to create a single general education (GE) math requirement, agnostic of the major discipline. • Retains major-specific guidance on math requirements by having the specific math courses needed listed in the major and broadens the multiple use policy to allow the math course to satisfy in the major and general education. <p>General Education Curriculum Implementation Advisory Group</p> <ul style="list-style-type: none"> • Workgroup will be established by the Provost to identify implementation considerations and concerns; review implementation options and provide feedback; and ensure appropriate communication and coordination. <p>Future Considerations</p> <ul style="list-style-type: none"> • Second Language Foundations and Second Language Requirement for Bachelor of Arts Degrees • Substitutions for Approved General Education Courses • Credit by Exam | | |

Policy Revision Side by Side

Additions in **Green** – Deletions in **Yellow**

| Existing Policy | Proposed Edit |
|--|---|
| <p>General Education Attributes</p> <p>The General Education curriculum described below applies to all students who matriculate in Spring 2022 or beyond. Students who matriculated in Fall 2021 or prior should consult the Fall 2021 General Education Curriculum policy.</p> <p>Attribute Requirement in General Education</p> <p>Exploring Perspectives and Building Connections courses within General Education enhance learning experiences so that faculty and students explore perspectives and build interdisciplinary connections to be prepared for meaningful engagement in a global context. Integral to this goal are topical areas in which all students should be educated. These areas include: Diversity and Equity, Quantitative Reasoning, World Cultures and Societies, and Writing. Each of these areas, briefly defined below, is an attribute attached to Exploring Perspectives and Building Connections courses that fulfill the guidelines of the appropriate area and are defined as such in the general catalog of courses. More detailed guidelines of these attributes will be part of the General Education website and embedded in the course approval process.</p> <p>Diversity and Equity Attribute</p> <p>Classes with the Diversity and Equity Attribute will focus on issues such as racism, classism, sexism, ableism, imperialism, colonialism, transphobia, xenophobia, and</p> | <p>This section intentionally left blank; this policy to be inactivated & pertinent information will be incorporated in the General Education Curriculum policy.</p> |

| Existing Policy | Proposed Edit |
|--|---------------|
| <p>other structured inequities. It is our responsibility as Wildcats to promote greater social equity.</p> <p>Quantitative Reasoning</p> <p>Classes with the Quantitative Reasoning Attribute will focus on generating, analyzing, and/or interpreting quantitative information, developing the ability to construct coherent arguments based on that information, and effectively communicating those arguments. It is our responsibility as Wildcats to promote evidence-based reasoning and data literacy.</p> <p>World Cultures and Societies</p> <p>Classes with the World Cultures and Societies Attribute will focus on a broad array of questions that have shaped our global community both past and present. It is our responsibility as Wildcats to promote understanding and respect for societies outside the United States and to think critically about our place in the world.</p> <p>Writing Attribute</p> <p>Writing mobilizes thinking and learning. Founded on principles of Writing Across the Curriculum (WAC), GE courses with the Writing Attribute promote engaged learning, critical thinking, and greater facility with written communication across rhetorical situations. While all GE courses should aim to incorporate writing in some way, the Writing Attribute designates courses that shift writing practices from implicit rules to explicit discussion of disciplinary writing expectations, sharing these common goals:</p> | |

| Existing Policy | Proposed Edit |
|---|---------------|
| <ol style="list-style-type: none"> 1. teach writing as a process in course activities and assignments, 2. identify previous writing experiences and transfer writing practices to different genres of writing across academic disciplines, and 3. define various disciplinary or field specific writing expectations. <p>Beginning with Fall 2026 matriculants, students must choose their Exploring Perspectives and Building Connections courses to fulfill the following attribute requirements:</p> <ul style="list-style-type: none"> • Diversity and Equity Attribute — 2 courses, with one focused on a U.S. context • Quantitative Reasoning Attribute — 2 courses • World Cultures and Societies Attribute — 1 course <p>Writing Attribute — 2 courses</p> | |

Policy Revision Side by Side

Additions in **Green** – Deletions in **Yellow**

| Existing Policy | Proposed Edit |
|--|--|
| <p>General Education Foundations</p> <p>The Foundations component of the General Education Curriculum builds competency in writing, mathematics, and second language skills that can be further developed in General Education courses, and in the major and minor.</p> <p>Requirements:</p> <ul style="list-style-type: none"> • Mathematics Requirements • Second Language Requirement for Undergraduate Degrees • Writing Requirement. Additional writing requirements include the Mid-Career Writing Assessment (MCWA) and Writing Emphasis Courses. <p>Foundation course requirements vary depending upon which academic program you select. To see the requirements and courses specific to your major and degree program, consult the general Academic Advisement Reports or your personal Advisement Report in UAccess Student. Please direct questions to your academic advisor.</p> | <p>General Education Foundations</p> <p>The Foundations component of the General Education Curriculum builds competency in writing, mathematics, and second language skills that can be further developed in General Education courses, and in the major and minor. All courses that satisfy foundations requirements are approved by the University-Wide General Education Committee after consultation of the academic discipline.</p> <p>Mathematics Requirement</p> <p>All students, as part of their General Education requirements, are expected to demonstrate mathematical knowledge and quantitative reasoning. Students must complete one approved course of 3 units or more denoted in the course catalog as satisfying Foundations Mathematics.</p> <p>Additional mathematics courses may be required in a student's program of study or as prerequisite requirements for coursework. Students should consult with their major advisor before selecting a general education mathematics course.</p> <p>Writing Requirement</p> <p>The General Education Writing Requirement ensures that all University of Arizona students develop strong writing skills. Effective communication is essential for academic success and professional growth.</p> <p>To fulfill this requirement, students complete designated writing courses as offered by the Writing Program.</p> |

| Existing Policy | Proposed Edit |
|-----------------|---|
| | <p>The University Writing Requirement also includes the completion of at least one Writing Emphasis Course in the major.</p> <p>Writing Course Options</p> <p>The course sequence required is determined by the Foundations Writing Evaluation (link).</p> <p>Two course sequence</p> <ol style="list-style-type: none"> Writing 101 or 101A or 107 Writing 102 or 108 <p>One course</p> <ol style="list-style-type: none"> Writing 109H* or Writing 305 <p>* a grade of C or higher is required in Writing 109H to satisfy the requirement with this course.</p> <p>Three course sequence</p> <ol style="list-style-type: none"> Writing 106 Writing 107** Writing 108** <p>**upon recommendation of the Writing Program students who complete Writing 106 may take:</p> <ul style="list-style-type: none"> Writing 101 or 101A instead of Writing 107 Writing 102 instead of Writing 108 <p>Second Language Requirement for Undergraduate Degrees</p> <p>Students are also required to complete the Second Language Requirement for Undergraduate Degrees.</p> |

Mathematics Requirement

| Policy | URL | Proposed Action |
|--------------------------|---|--|
| Mathematics Requirements | https://catalog.arizona.edu/policy/program-graduation/general-education/foundations#mathematics-requirements | <ul style="list-style-type: none"> Remove math strands, instead requiring all students to meet at minimum the former G strand requirement. Individual programs may require additional math coursework as a major requirement. Remove ability to satisfy math requirement with math placement Remove reference to physical addresses |

Policy Revision Side by Side

Additions in **Green** – Deletions in **Yellow**

| Existing Policy | Proposed Edit |
|---|--|
| <p>Mathematics Requirements</p> <p>Mathematics Placement Test:</p> <p>Registration in all MATH courses below MATH 129, as well as MATH 163, MATH 263, and MATH 302A, may require students to take the UA Mathematics Placement Test. Test scores are valid for one year. This requirement includes transfer students with or without mathematics credit and students with credit by examination, such as Advanced Placement (AP), CLEP, or International Baccalaureate (IB).</p> <p>Eligibility rules and testing information may be found on the Math Placement Homepage.</p> | <p>This section intentionally left blank; this policy to be inactivated & pertinent information will be incorporated in the General Education Foundations policy.</p> |

| Existing Policy | Proposed Edit |
|--|---------------|
| <p>Foundations-Mathematics Requirement:</p> <p>All students, as part of their Foundations requirements, are expected to demonstrate mathematical knowledge and quantitative reasoning by completing one of the following 3-unit courses or by achieving a minimum math placement code as stated below:</p> <ul style="list-style-type: none"> • earning credit for LING 123, (Introduction to Mathematical Approaches to Language), or MATH 105 (Mathematics in Modern Society), or PHIL 110 (Logic and Critical Thinking) check prerequisites, such as a minimum math placement code (see the chart provided on the Math Placement Homepage); or • earning credit for any 3-unit (or more) mathematics course numbered above Math 105, provided that the student has placed at the level required for the course (see the chart provided on the Math Placement Homepage); or • achieving a math placement code equivalent to that of students who have completed University of Arizona College Algebra by the end of the student's first semester at the University (see the chart provided on the Math Placement Homepage, as well as Proficiency and Exemption Exam Procedures and General Regulations). <p>[Note: the placement code is determined by the catalog and math placement regulations in effect when an exam is taken.] If the Math Placement Test is used for this purpose, the test must be proctored per Math Department guidelines, which</p> | |

| Existing Policy | Proposed Edit |
|---|---------------|
| <p>may be found on the Math Placement Homepage.</p> <p>Beyond this general minimum, however, the appropriate course for an individual student will depend on the student's major and the corresponding math strand appropriate to that major.</p> <p>Math Strands:</p> <p>Entry level mathematics students should choose one of three strands according to their interests, preparation, and intended major. All strands presume that students will have completed the high school math required for entry to the University.</p> <ul style="list-style-type: none"> • G-Strand (General Knowledge) — This strand involves the general understanding and appreciation of how mathematics is used to solve problems in everyday life. The G strand does not prepare a student for any further work grounded in mathematics and assumes the student will not proceed beyond the basic Foundations level noted above. Thus only those students whose major requires the most general knowledge of mathematics should take this strand. The options to satisfy this strand are: <ol style="list-style-type: none"> 1. earning credit for LING 123 (Introduction to Mathematical Approaches to Language), or MATH 105 (Mathematics in Modern Society), or PHIL 110 (Logic and Critical Thinking), or PSY 230 (Psychological Measurement and Statistics) check prerequisites, such as a minimum math placement code (see the | |

| Existing Policy | Proposed Edit |
|---|---------------|
| <p>chart provided on the Math Placement Homepage); or</p> <p>2. earning credit for any 3-unit (or more) mathematics course numbered above Math 105, provided that the student has placed at the level required for the course (see the chart provided on the Math Placement Homepage); or</p> <p>3. achieving a math placement code equivalent to that of students who have completed UA College Algebra by the end of the student's first semester at the UA (see the chart provided on the Math Placement Homepage, as well as Proficiency and Exemption Exam Procedures and General Regulations). [Note: the placement code is determined by the catalog and math placement regulations in effect when an exam is taken.] If the Math Placement Test is used for this purpose, the test must be proctored per Math Department guidelines, which may be found on the Math Placement Homepage.</p> <ul style="list-style-type: none"> • M-Strand (Moderate Knowledge) — The M-strand is for students who require mathematical facility at the level of at least MATH 112 (College Algebra Concepts) or 108 (Modeling with Algebraic and Trigonometric Functions). This strand involves reasonable facility with algebra and algebraic functions, graphs, and simple modeling. Students who choose the M-strand are prepared for further mathematical work. This work may include MATH 107 (Exploring and Understanding Data), MATH | |

| Existing Policy | Proposed Edit |
|--|---------------|
| <p>113 (Elements of Calculus), MATH 116 (Calculus Concepts for Business), MATH 119A (Mathematics of Biological Systems: A Calculus Based Approach), or a statistics class from outside the Mathematics Department, such as ISTA 116 (Statistical Foundations for the Information Age) or SBS 200 (Statistics for the Social Sciences).</p> <ul style="list-style-type: none"> • S-Strand (Substantial Knowledge) --- This strand involves skill and facility with calculus. The S-strand begins at one of two calculus options --- MATH 122A/B (Functions for Calculus and First Semester Calculus) or MATH 125 (Calculus I). Students who successfully complete the S-strand may continue on to MATH 129 (Calculus II), MATH 223 (Vector Calculus), or beyond. Those who choose but are not ready to begin the S-strand will be required to take preparatory work. <p>Each major indicates the mathematics strand, or specific course from a strand, that is most appropriate for its students. It is important to note that each strand provides a different level of mathematical training, but students can satisfy the mathematics requirement in their major by completing a more advanced mathematics course. Because the S-strand presumes the M-strand and the M-strand presumes the G-strand, students will have the most flexibility in their major choice by aiming for the S-strand. A student who chooses to meet the general education mathematics requirement with the G-strand will have the most restricted set of major choices.</p> <p>Please direct all Math Placement questions to the Department of Mathematics:</p> | |

| <p>Mid-Career Writing Assessment (MCWA)</p> <p>Every undergraduate degree program requires satisfaction of the Mid-Career Writing Assessment (MCWA). The MCWA is based on students' performance in their second semester English composition course. A grade of A or B in one of the following courses will satisfy this University writing proficiency requirement:</p> <ul style="list-style-type: none"> English 102 or English 108 (for ESL students) or English 109H (for Honors students) <p>Transfer courses in composition are evaluated by the First-Year Writing Program Transfer and Placement Coordinator.</p> <p>Once students have completed 40 units toward their degrees and have been admitted to their major degree program, their academic records are reviewed. Students earning less than a B grade in their second semester composition course must take one or more additional steps to improve their composition skills so they can meet the writing standards of their major department. Students are responsible for providing evidence that they have completed these additional steps, or their academic records will not reflect completion of this graduation requirement. Depending on the department's requirements, this evidence might be, for example, an attendance sheet from a workshop series offered by the Writing Center, writing samples revised as part of the Writing Skills Improvement Program, or a polished portfolio of papers written for certain Tier One General Education courses. Once the department has verified that the MCWA requirement has been satisfied, the major advisor notifies the college dean's office that the student has met the department's requirement. Your Student</p> | <p>This section intentionally left blank; this policy to be inactivated.</p> |

| <p><u>Academic Advisement Report (SAAR)</u> will display the Mid-Career Writing Assessment as a degree requirement.</p> <p>Procedures for students earning less than a B in their second-semester composition course:</p> <ul style="list-style-type: none"> • If you have declared a major: you should contact your department or college <u>advisor</u> for your major for instructions on how to satisfy the MCWA for that department. Your advisor will explain what the department expects its majors to do and will give you a reasonable deadline in which to accomplish it. • If you change your major: after meeting the MCWA requirement for one department, be aware that you may need to take additional steps to satisfy the proficiency requirement for the department of your new major. Contact the advisor in your new major for instructions on completing the MCWA for that department. • If you have not yet declared a major OR are in the pre-professional phase of your program (e.g., pre-education, pre-nursing): you should NOT contact your department or college advisor until you have declared a major or are admitted to the professional phase of your program. Prior to declaring a major or while in the pre-professional phase, you may want to strengthen your writing skills through the Writing Center or Writing Skills Improvement Program so that you are better prepared when you are admitted to your major. • If you have a double major OR concurrent degree programs: you should contact the department advisor of your primary major or primary degree program on how to fulfill the MCWA. While you will need to complete any major-specific writing requirements for both of your degree programs, you will satisfy the University level writing proficiency when you meet the standards established by your primary major. | |
